

Del E. Webb School of Construction

2018 Safety Week at Del E. Webb School of Construction

October 8 – 10, 2018

Safety Week at [Del E. Webb School of Construction](#)  is an opportunity to highlight the importance of safety in every aspect of the construction industry starting in the classroom.

Safety Week brings safety professionals into the construction classroom to emphasize safety in every aspect of a project. It introduces safety as a career to students and demonstrates the various ways companies keep their employees safe. It also showcases the safety equipment available. Safety Week culminates with the 6th Annual Safety Days and the Vesting Ceremony sponsored by **Bechtel**, providing incoming students with their own personal protective equipment (PPE), setting a safety standard as they begin their academic career at ASU. It prepares the students with the required PPE to attend site visits and tours with their classes.

In addition to targeted safety messages in our academic courses, we offer several low-cost events open to the public. Registration is required. **See below for details.**

Event Schedule

October 8th – Strategies for Improving & Maintaining Safety, Health & Environmental Performance

October 9th – Safety Leadership in Planning, Design and Construction Workshop

October 10th – Safety Days and Vesting Ceremony

October 10th – Global Center for Safety Board Meeting

All events will be held at **Arizona State University**, College Avenue Commons, 660 S College Ave, Tempe, AZ 85281

Event Details
